Hi Adam,

We are following up with our contractor regarding the validated data and expect to have it soon. I will let you know when it is received. With respect to the sampling at the Lister Ave. site, EPA is referring to the 2004 Remedial Action Construction Report, which is 7500+ pages, and information gathered during EPA's site visit. We believe Givaudan likely has this report already. However, a copy of the report is available in our Records Center at 290 Broadway. Please let me know if you'd like to set up an appointment with the Records Center.

Thanks, Leena

**Subject:** Lower Passaic River

Hi Leena. Following up on our call this morning, I was wondering when EPA expects to have the validated data from the 11/13 sampling in the river and Third River. We would also like to arrange to come to EPA sometime next week and request copies of any figures/drawings/maps/data (etc.) that EPA is using in

determining where to sample at the Lister site. Please let us know if there is a way to more efficiently target our request. I appreciate any information that you can provide on the above questions. Thank you.

Regards,

Adam C. Arnold, Esq.
